CURRICULUM VITAE

(rev. 2/09)

CERTIFICATIONS

American Board of Pediatrics
Basic Life Support (BLS)
Neonatal Resuscitation Program (NRP)
Pediatric Advanced Life Support (PALS)
APLS: Pediatric Emergency Medicine
Advanced Cardiac Life Support (ACLS)
Pre-Hospital Trauma Life Support (PHTLS)

PROFESSIONAL ORGANIZATIONS, COMMITTEES, BOARDS

Fellow of The American Academy of Pediatrics
Medical Board of California, Expert Medical Reviewer
Contra Costa Health Plan, Credentials Committee
Disaster Medical Assistance Team (DMAT) CA-6, Deputy Team Commander/Chief Medical Officer
Alameda County Emergency Medical Services for Children (EMS-C) Steering Committee
Children's Hospital Oakland Disaster Steering Committee
Pediatric Advisory Committee, Alameda County First 5/Every Child Counts
Alameda County Committee on Children With Special Needs
Children's First Medical Group, Autism Steering Committee
Community Advisory Committee, Oakland Unified School District Special Education Program
World Kuk Sool Won Association, Team Physician & Medical Consultant

HOSPITAL AFFILIATIONS

Children's Hospital Oakland
Alta Bates Summit Medical Center, Ashby Campus
Contra Costa County Regional Medical Center
San Francisco General Hospital & Department of Public Health

EDUCATION & TRAINING

Pomona College (9/79-5/81)
University of California, Santa Cruz (9/81-12/82: BA with Honors in Biology 12/82)
University of California, Irvine, College of Medicine (MD 6/87)
Pediatric Internship and Residency, Children's Hospital Oakland (7/87-6/90)

PROFESSIONAL PRACTICE AFFILIATIONS

Oakland Pediatrics & Behavioral Medicine (Brian Blaisch, MD, Pediatrics, Inc.)

- Primary care pediatrics
- Behavioral pediatrics
- Medical-Legal review, consulting & advocacy

Contra Costa Regional Medical Center

- Attending pediatrician in the CCRMC hospital for family practice residency program

San Francisco Department of Public Health Community Provider Network

- Physician Specialist for Special Programs For Youth at SF Juvenile Hall
- Second Chance Laser Tattoo Removal Program

LANGUAGE & CULTURAL COMPETENCY

Spanish language fluency and extensive travel throughout Latin America

PROFESSIONAL ACTIVITIES

Disaster Medical Assistance Team (DMAT) CA-6 (7/98-present)

- Deputy Team Commander (8/05-present)
- Chief Medical Officer (8/05-present)
- Training Committee (1999-2005)

Specific Activities & Deployments:

- Urban Shield Bay Area Regional Law Enforcement Exercise (9/28/07-10/01/07)
 - Medical Director for the exercise
 - Alameda County Sheriffs Office; Jim Morrissey, EMT-P, MA Homeland Security, Terrorism Preparedness Coordinator, ALCO EMS, (510) 618-2036
- DMAT Hurricane Katrina Deployment (9/4/05-9/9/05)
 - Strike Team physician for medical support of DMORT operations.
- DMAT World Trade Center Disaster Deployment (10/18-10/31/01)
 - Provided onsite medical care to the workers at Ground Zero.

Team Physician & Medical Consultant, World Kuk Sool Won Association (4/92-present)

- Volunteer medical consulting for classes, testing, seminars and tournaments
- KSW Tournament Physician (10/94-present): Bi-annual tournaments in Houston, TX and San Francisco.

PUBLICATIONS

- Meeting the Challenges of Pediatric Behavioral Emergencies; Cynthia Frankel, RN, MN; Brian Blaisch, MD; and Bruce Hagen, EMT-P; Fire EMS, Vol. 4; Issue 6; Nov 2006
- Bhasin, S., Heber, D., Steiner, B., Peterson, M., Blaisch, B., Campfield, LA., & Swerdloff, RS. Hormonal Effects of GnRH Agonist in the Human Male: II. Testosterone Enhances Gonadotrophin Suppression Induced by GnRH Agonist. Clinical Endocrinology 20:119-128, 1984

AWARDS

- Disaster Medical Assistance Team (DMAT) CA-6 2008 Member of The Year Award
- City of Oakland City Council Proclamation Commending Brian Blaisch, MD, On “National Childhood Lead Poisoning Prevention Week” October 19-25, 2008 for his distinguished contribution in preventing and treating childhood lead poisoning.
- Alameda County CHDP Program, Certificate of Appreciation in Recognition of Outstanding Service and Lasting Contribution to the Alameda County CHDP Program (August 2008)
- Alameda County Emergency Medical Services Agency Star Award (5/8/06)
 - Topic: For exceptional contributions to the EMS community
 - Contact: Michael King, EMS Director, 1000 San Leandro Blvd., San Leandro, CA 94577
- World Kuk Sool Won Association, Appreciation Award for “Commitment & Dedication”, 1998 World Championship Tournament (10/3//98)
- Orange County Chapter, American Academy of Pediatrics, Outstanding Student in Pediatrics (6/87)

PERSONAL ACTIVITIES

Kuk Sool Won (traditional Korean martial art)

3rd degree black belt (1st dahn, 3/96; 2nd dahn 2/99; 3rd dahn 3/03; ID# A-9660)

PROFESSIONAL WORK EXPERIENCE**Kaiser Permanente Hayward Pediatrics (12/89 – 11/06)**

Predominantly as an on-call hospitalist physician (12/89-8/92, 8/95-11/06); additionally, full-time staff pediatrician (8/92-7/95). Inpatient responsibilities included: management of pediatric ward, co-management of a level 3 ICN with a neonatologist, well baby nursery, delivery room resuscitations, and ER consultations. Outpatient responsibilities included: primary care pediatrics, coordinating the ADHD program, and attending in the adolescent clinic.
Contact: Arnd Herz, MD, Director of Pediatrics (see Reference section)

Children's Hospital Oakland House Attending Physician (2/05; 2/06)**Medical Director, Behavioral Pediatrics of The Bay Area (7/01-2004)**

Patient evaluation, diagnosis, & treatment of children with learning and behavior problems.
Contact: Norbert Ralph, PhD, MPH, Director, Behavioral Pediatrics, Inc. (see Reference section)

Richmond Pediatric Medical Group (12/99 – 7/03)**AND****North Oakland Pediatric Medical Group (5/91- 12/99)**

Primary care pediatrics in a high volume, inner city practice. Management of newborns/hospitalized patients, including supervising residents at Children's Hosp Oakland.
Contact: William Jenkins, Jr., MD, Richmond Pediatrics, 3619 Cutting Blvd., Richmond, CA 94804; (510)529-1271; fax (510)237-3957
Contact: Robert Mines, MD, North Oakland Pediatrics, 5715 Market St., Oakland, CA 94609; (510)652-5161

Kaiser Permanente Hayward, Emergency Dept. (7/96 – 1999)

Staff pool physician seeing adult and pediatric patients.
Contact: Drew Baker, MD, Chief Emergency Department (see Reference section)

Children's Hospital Oakland, Hospitalist Physician (9/90-6/92)

Position: Hospital based staff pediatrician in a CHO satellite pediatric ward
Contact: Medical Director, Children's Hospital Oakland (see References)

Position: Transfusion Unit Physician

Contact: Elliot Vichinsky, MD, Dept. of Hematology, Children's Hospital Oakland; (510)428-3615

Bay Area Pediatrics (12/90 -5/91)

Locum tenens coverage of primary care pediatric practice during the Gulf War
Contact: Michael LeNoir, MD, 401-29th St.#201, Oak, CA 94609; (510)834-4897

Children's Hospital Oakland Residency Extra-curricular Activities:

- 1) Camp physician for Northern California Sickle Cell Summer Camp (8/88, 8/89, 8/90)
- 2) Camp physician, counselor and respiratory therapist for the Northern California Cystic Fibrosis Summer Camp (7/89)

LECTURES & EDUCATIONAL ACTIVITIES

- “Autism: Screening, Assessment, Referral and Treatment”, First 5 Alameda County-ECC (11/18/08)
Contact: Veronica Sanchez, First 5 Alameda County-Every Child Counts; 1100 San Leandro Blvd., Suite 120, San Leandro, CA 94577; 510-875-2477, fax 510-875-2410
- “Special Education Rights and Responsibilities”, First 5 Alameda County-Every Child Counts (9/19/07)
Contact: Sandra Y. Zavala, First 5 Alameda County-Every Child Counts; 1100 San Leandro Blvd., Suite 120, San Leandro, CA 94577; 510-875-2477, fax 510-875-2410
- “Behavioral Emergencies Resources”, 2nd Annual Bay Area Regional EMS-C Conference, Best Practices Round Table Presenter (9/19/07)
Contact: Cynthia Frankel, EMS-C Coordinator, Alameda County EMS, (510) 618-2031; (925) 285-2403; cynthia.frankel@acgov.org
- Neonatal Resuscitation Program Instructor for CCRMC Intern Orientation (6/22/05)
Contact: Nancy Owens, MD, NRP Lead Instructor, Dept. of Pediatrics, CCRMC, 2500 Alhambra Ave., Martinez, CA 94553; (925)370-5200, x3473

UC Irvine, School of Medicine:

- 1) Child Development Course (10/85-12/85) - psychiatry resident course: readings, case presentations, and discussion of issues in child psychological development.
- 2) Longitudinal Case Study Group (9/85-12/85)- Justin Call, MD, Professor of Child Psychiatry. Observational sessions with families to research ongoing development of the children and the family dynamic.
- 3) "At Home" Child Psychiatry Seminar Series (3/84-6/87) - Justin Call, MD. Monthly lectures for psychiatry residents featuring a multidisciplinary approach to issues in child psychology.

Undergraduate Research:

Lab Assistant, Reproductive Endocrinology Lab, Harbor-UCLA Med Center (5/81-5/83)
 Contact: see Research & Reference sections below

PROFESSIONAL INTERESTS

Behavioral Pediatrics

In college, medical school and residency I developed and pursued interests in psychology, development, and family dynamics. At Kaiser Hayward I helped develop and coordinated a multi-departmental program to evaluate, educate and treat children and families affected by ADHD and other learning or behavior problems. Subsequently, I have developed a sizeable specialty practice, both as a primary provider in my own office, as well as a consultant in San Francisco and Contra Costa Counties. As there is a paucity of services and providers available to indigent children with such behavioral and mental health concerns, in fulfilling my commitment to this group, I have had to bridge the gap between Pediatrics, Psychiatry, and Psychology.

Autism

As a behavioral pediatrician who is also the father of a 6 year-old child with autism I have a unique perspective and interest in autism.

- I am a voting member of the Community Advisory Committee to the Programs for Exceptional Children of the Oakland Unified School District, which is a parent advocacy group, which serves a review and advisory function to special education students, families and the school district.
- I am familiar with both mainstream and some alternative treatment modalities for autism, including Applied Behavioral Analysis and the Gluten Free Diet.
- I am working with a martial arts instructor and autism therapists to develop a standardized program of martial arts foundational training as an adjunctive treatment modality for children with autism.

Educational Advocacy

Having grown up with a sister with special educational needs and as a student interested in development and psychology, I naturally gravitated early on in my career to working with families with children with special educational and psychological needs. This work initially focused on children with Attention Deficit-Hyperactivity Disorder, as well as other problems of learning and behavior. This work has brought me in close contact with the educational system and has given me an understanding of how assessment and services are delivered in the school system. My own experiences with the school system as a parent of a child with autism have greatly affected my understanding of the importance of advocacy in education. Part of this sense of advocacy has been cultivated by my participation as a voting member of the Community Advisory Committee to the Programs for Exceptional Children of the Oakland Unified School District, which is a parent advocacy group which serves a review and advisory function to special education students, families and the school district. This role has become a central part of my primary pediatric practice, as well as an area of expertise that is utilized in the part of my practice that is devoted to medical-legal consultation. The nature of this work consists of taking a multidisciplinary view that is medical, developmental, psychological, and educational in nature. Being directly involved with and communicating with school personnel is critical in both ensuring that they understand the needs of the child, as well as to know that the child has a strong advocate in the medical community.

Adolescent Medicine

As a community physician and behavioral pediatrician, a large number of my patients are “at-risk - teens”, which has increased both my awareness and abilities in this arena. This interest has led me to work in various adolescent medicine clinics including at Kaiser Hayward, the Contra Costa County Juvenile Hall, the San Francisco County Youth Guidance Center (Juvenile Hall), as well as with the San Francisco Special Programs For Youth Second Chance Laser Tattoo Removal Program.

Medical-Legal Review & Advocacy

As an Expert Medical Reviewer for the Medical Board of California, and as a member of the Contra Costa Health Plan Credentials Committee, I am particularly attuned to issues of quality, as well as the maintenance of or deviation from the standard of care in medicine. I use that expertise, along with my broad clinical experience, to provide medical liaison, second opinions, and medical-legal review privately, either pro bono or on a fee-for-service basis.

Wilderness, Travel, and Disaster Medicine (Austere Medicine)

My interests began when, following residency, I sought to better prepare myself for wilderness and adventure travel. Subsequently, I began to lecture on various topics, as well as to create some of my own medical kits, manuals, and presentations. Subsequently, I joined the Disaster Medical Assistance Team (DMAT) CA-6, which operates under the National Disaster Medical System of the

Department of Health & Human Services. I have been deployed with my team to the World Trade Center Disaster and to Hurricane Katrina. Recently, I have taken on an increasing role of leadership in DMAT as Chief Medical Officer, Medical Director, and Deputy Team Commander. I have also participated in numerous DMAT exercises, as well as State, County, and local hospital disaster drills.

Sports Medicine

In my role as team physician and medical consultant for The World Kuk Sool Won Association, I have provided medical coverage at numerous martial arts tournaments. I have developed my own system of keeping track of injuries sustained in training and competition, which includes unique medical record forms and photographic documentation. By focusing my efforts on prevention, proper training, and education, both the number and severity of injuries sustained in competition and practice in this organization has dramatically declined.

Vipassana Meditation & Socially Engaged Buddhism

Through my interests in psychology eastern healing arts I discovered the personal and professional benefits of the Buddhist perspective and insight meditation. Initially I attended silent meditation retreats at Spirit Rock Meditation Center in Marin, CA (1/02 & 12/04). In April 2007 I enrolled in a 2-year intensive program in socially engaged Buddhism entitled: The Path of Engagement. The program consists of weeklong retreats every 6 months and monthly small group meetings and mentor meetings to review educational materials and practice.

Eastern Traditional Medicine

Because of my interests in martial arts, sports medicine, and wellness, I completed a certificate program in Shi'atsu Acupressure (CST 3/97), which is a therapeutic treatment modality that utilizes acupressure points and traditional Chinese Medicine theory. Following a trip in 1996 to Dharamsala, India, to visit the Tibetan Community in exile, I also pursued studies in Tibetan Medicine theory.

Space Medicine

Interest in the space program provided the spark that launched me into the sciences as a serious student. As a physician, my interest has persisted and become focused on space medicine. Additionally, I am a founding member of the Challenger Center, an organization created following the Challenger shuttle disaster to promote interest in science for school aged children.
